Universal Healing Tao Foundation

Essence In harmony with the life-force, we grow the virtues of Heart, Soul and Spirit.

Mission We enable cultivation of our energy (Qi) to heal ourselves.
We inspire people to raise and educate our soul and spirit into a clear path to the Tao/Source.

Vision We globally transmit to future generations a path living with an open heart, clear life purpose and spiritually embodying the Eternal/ Immortal Tao

Values We honour with loving acceptance, the dynamic balance of light and darkness. We live in harmony with the virtues of trust, respect, love, wisdom and compassion.

Conduct By the Taoist concept of "Te" which is virtue, power and integrity, we cultivate teamwork and mutual cooperation in order to achieve our goals and manifest our vision.
